This book shows how the social constructions of time, space, race, gender and class intersect with
each other to produce particular social phenomena that are enduring and significant for our society.
...

Making societies : the historical construction of our ...

The only book written for undergraduates about the social construction of reality that is also
historical and comparative. In addition, it includes chapters on the social construction of time and
space, as well as the more traditional chapters on race, class, and gender.

Making Societies | SAGE Publications Inc

This book shows how the social constructions of time, space, race, gender and class intersect with
each other to produce particular social phenomena that are enduring and significant for our society.
Leading the reader through examples drawn from around the world, the author shows how these
categories are social constructions; historically formed, ideologically loaded, and subject to change.
