Managerial Accounting For Dummies Cheat Sheet - dummies

However, the cost of corporate overhead is not a relevant cost, since it will not change as a result of this decision. The reverse of a relevant cost is a sunk cost . A sunk cost is an expenditure that has already been made, and so will not change on a go-forward basis as the result of a management decision.

Relevant cost — AccountingTools

Relevant costs are costs that are affected by a managerial decision in a particular business situation. In other words these are the costs which shall be incurred in one managerial alternative and avoided in another. As the name suggests they are 'relevant' for managerial analysis and should be considered in all calculations made for the purpose.

Relevant Costs vs Irrelevant Costs | Explanation | Examples

Costs, when classified according to usefulness in decision-making, may be classified into relevant and irrelevant costs. Cost data are important since they are the basis in making decisions that are geared towards maximizing profit, or attaining other objectives.
