Managing a Construction Firm - Startup Business

Construction project management requires the skills and expertise of a traditional project manager but applied to the construction industry. Because a construction project is always shifting, an ideal construction project manager must possess a large array of experience and know-how to handle diverse teams and meet assorted objectives.

Beginner's Guide to Construction Project Management

Castles in the Air? The management of the construction firm. Who is next? The current business model for main contracting firms is failing, demonstrated through the collapse of Carillion, and Interserve going into administration.

Castles in the Air? The management of the construction ...

So, in my experience the difference between a managing director and a managing partner in a construction company is ownership. A managing director is but an employee, an important well compensated one, but an employee none the less. A managing partner is an owner with an equity stake in the company and may well be the one who hired the managing director.

What is the difference between a managing partner and a ...

There is never a time when a construction company is not going to take at least a little risk with their projects. In that sense, it is no exaggeration to claim that an exhaustive risk management plan is a 'must have' in your construction operations.
